

Charles Péguy

Charles Péguy College is located in Marseille (France).

If you are ready for a real challenge, if you want to develop knowledge of a specific vocational area, to take responsibility for your own learning and to develop a broad range of high level personal skills suitable for both the workplace or university, then

contact us !

Our trainings provide our students with :

- **A combination of the essential knowledge and skills** that employers and universities look for, including teamwork, self-management and thinking skills.
- **Opportunities to experience different styles of learning** in different environments such as College and the workplace. Half of what you do will be about applying your knowledge to real situations: linking theory to job roles, carrying out real life investigations and interacting with professionals.
- **Flexibility and choice** with options to pursue your interests, whether this is further study or a job.

Marseille - France

Welcome to Charles Péguy College

Firstly, thank you for your interest in Charles Péguy College / Marseille.

We are a very successful College and take great care to provide courses which are both interesting and enjoyable and will lead you to a higher level of study or to a worthwhile career.

We are praised for our high academic standards of support for students, for the quality of our teaching and for our commitment to equality of opportunity, amongst many other aspects of our work.

We are very proud of the success of our students, many of whom progress to university and employment, not just locally, but all over France and abroad.

It is not just for the quality of our courses that we are so successful – we also value wider extra-scholar interests through enrichment programmes and events involvements which give opportunities to students to develop practical skills.

With such a vast variety of courses available, it is very important for the College that our students receive the highest quality of advice, guidance and support in their studies.

We are very confident that we can provide all the help our students will need to make the right decision about their courses of study and to support them in achieving success and progression to a higher level and careers.

Welcome to the Charles Péguy College.

Stéphane THIEBAUD
Headmaster

Our shared values

- **Active promotion of equality, diversity and inclusiveness**, within a culture that respects all individuals for their unique talents and contributions, together with a strong ethos of guidance and support for learners throughout their learning journey.
- **The recognition and celebration of success** for both students and staff, embedded in every Section of the College.
- **A strong and consistent sense of community identity** across all Sections, levels and courses in the College.

- **Positive behaviour**, self-discipline, and responsibility from all students, through positive citizenship activities, and through positive staff role modelling.
- **Excellent standards in teaching and learning**, so that all our students are fully equipped to compete positively for employment or higher education.
- **Continuous development** of all staff to maximise potential, both for the individual and the organisation.
- **Proactive engagement** with customers, stakeholders and local employers, to meet the changing needs of the communities and constituencies served by the College.

Our educational partnerships

Charles Péguy College participates to different European Educational partnerships with :

- Coventry University
- Ministère de l'Éducation Nationale
- Agence Europe Education Formation France

- European Regions Enhancing Internationalization Vocational Education and Training
- PACA Region
- Marseille Provence Métropole
- E-Twinning
- OLS – Online Linguistic Support

Charles Péguy College owns the extended Erasmus Chart.

Courses objectives

In order to become client advisors, our students must be able to nurture personalised relationship with the clients and to manage their portfolios building on the distribution and communication channels. That is what we are training them for.

This course includes general education modules and, in line with banking ethics, allows the students to develop :

- Technical skills in banking, insurance, finance, law and taxation.
- Commercial skills: oral communication, ability to sell and to negotiate in French and in.

English, sense of responsibility and teamwork

The validation of these competences is based on tests' results during the year and on a final written and oral exam. Professionals from the banking business work in association with the teachers to create these exams.

HND (Foundation degree) IN BANKING - CLIENT ADVISOR 3 YEARS AFTER HIGHSCHOOL GRADUATION

Main strenghts of the course

- A 14-week internship: Charles Peguy works in partnership with the main bank services and networks.
- Several hours of professionalization workshop dealing with practical cases

and project development are lead by our teachers in order for our students to develop their banking and commercial skills.

- Thorough preparation for the AMF Certificate (Autorité des marchés financiers = Financial Market Authority), which is mandatory for the practice of the profession.
- Training modules including visits of professionals sustained by a strong network of former students.

At the end of this course, young graduates will be able to work for a bank agency or will choose to continue their studies, joining a bachelor degree, a professional degree, a master's degree or otherwise, a business school

<http://www.challenges.fr/>

Courses objectives

The course's main purpose is to train students to design information systems. Furthermore, it aims at training them to offer, control and develop software solutions, to carry out projects but also to define terms of references for a structure in accordance with its needs.

The course is based on :

- General education modules: communication modules in French and English, mathematics modules, managerial, legal and economic environment modules.
- Professional skills: IT methods and techniques, operator training, infrastructure solutions, network and systems engineering and design of software solutions,...

The validation of these competences is based on both tests' results throughout the year and on a final written and oral exam.

HND (Foundation degree) IN INFORMATION TECHNOLOGY SERVICES 2 YEARS AFTER HIGHSCHOOL GRADUATION

Main strenghts of the course

- A 10-week internship.

- A professional development path in order for the students to acquire technical skills through the study of practical case and project development
- Training modules including visits of professionals sustained by a strong network of former students.

At the end of this course, our graduated students will be able to join an engineering school or will continue on their studies joining a professional bachelor degree. They will be able to work as manager of the internal IT infrastructure of a company, website administrators (webmasters), IT developer,...

Courses objectives

Welcoming, selling, but also managing, editing and marketing tourism products: these are the missions and goals of the graduated students once their competences are validated.

Thanks to our course, they will be able to work in different areas and structures such as business, leisure or wellness tourism but also in cruises or events business and for online tourism websites.

The course is based on :

- General education modules: communication modules in French and English, a second language module, managerial, legal and economic environment modules and a module in touristic geography.

- Professional skills development: conception of the touristic offer, distribution, customer relationship management, touristic actions and information

The validation of these competences is based on both tests' results throughout the year and on a final written and oral exam.

HND (Foundation degree) IN TOURISM 2 YEARS AFTER HIGHSCHOOL GRADUATION

Main strenghts of the course

- A 12-week internship: Charles Peguy works in partnership with the main tourism stakeholders (marketing, production, transportation and hotel industry)

- Several hours of professionalization workshop dealing with practical cases and a personalised project are lead our teachers in order for our students to develop technical and commercial skills.
- Training modules including visits of professionals from the tourism industry sustained by a strong network of former students and partnerships with regional tour operators.

At the end of this course, young graduates will be able to work for any tourism company or will choose to continue on their studies, joining a professional degree, a master's degree or otherwise, a business school.

Courses objectives

This course aims at training associates who will be working with executive managers, senior executives or project managers in areas such as communication, administrative management, management or relationship marketing.

The course is based on :

- General education modules: communication modules in French and English, a second language module, managerial, legal and economic environment modules.
- Professional skills development: internal and external communication, decision making skills, projects organisation and management.

The validation of these competences is based on tests results throughout the year and on a final written and oral exam. Professionals work in association with the teachers to create these exams.

HND (Foundation degree) IN MANAGER ASSISTANT

2 YEARS AFTER
HIGHSCHOOL
GRADUATION

Main strenghts of the course

- A 12-week internship including a training period in a professional environment with international connections.
- Several hours of professionalization in order for our students to develop a professional conduct and relational and editorial skills.

- Training modules including visits of professionals sustained by a strong network of former students.

At the end of this course, young graduates will be able to work as management assistant, sales assistant or Human Resources assistant in both the public or private sector. They will also be able to continue on their studies and join a bachelor degree, or a professional degree.

Courses objectives

Graduating in this degree enables our students to hold position of responsibility in areas such as accounting, finance, management control, law and management. This degree allows them to work in certified public accountant offices but also in companies. Furthermore they will be able to work in the public or associative sector.

The course is based on:

- General education modules in economics, management, law introduction and English.
- Accounting and finance but also in-depth accounting, management control, information systems and different laws modules (fiscal legislation, corporate law, employment law).

These competences are submitted to validation through a final (mostly written) exam. 13 modules need to be validated

ACCOUNTING AND MANAGEMENT DEGREE

3 YEARS AFTER
HIGHSCHOOL
GRADUATION

Main strenghts of the course

- A 8-week internship . Charles Peguy works in partnership with the main bank services and networks
- A high level of expertise : students deal with practical cases in order to develop their accounting and managerial skills.
- A professional degree : training modules include visits of professionals.

- Strong network of former students

Right after their degree graduation, students will be able to join the labour market or to continue on their studies, joining a master's degree. They will also be able to pass Civil services exams.

Courses objectives

The **GLOBAL MARKETING Bachelor** aims at giving the students the tools to be aware of how business companies work in the marketing and communication areas. Furthermore, it allows them to fully understand the strategic issues corporate groups must face in a globalization context.

The **INTERNATIONAL HOSPITALITY AND TOURISM MANAGEMENT Bachelor** gives the opportunity to the students to develop the competences required in order to work in the touristic, the marketing or the management sector. It deals with the wide scope of activities related to tourism and hotel business sectors taking into account the always-fluctuating international context.

The **GLOBAL BUSINESS Bachelor** aims at training the students to understand the challenges of the business world in areas

such as finance, marketing and human resources. Furthermore, it allows them to fully understand the strategic issues corporate groups must face in a globalization context.

The teaching strategy is focused on interaction, learning through professional experiences, project management and teamwork. Students are able to develop these competences thanks to a very thorough program combining academic teaching, practical teaching and personality development (autonomy, critical mind...)

BACHELORS WITH HONORS DEGREE BA(HONS) TOP-UP WITH COVENTRY UNIVERSITY

GM - IHTM - GB

Main strenghts of the course

- An English-only formation
- All the modules include visits of English-speaker professionals
- Free access to Coventry University's data base.

These competences are submitted to validation through written and oral exams.

Right after their degree graduation, students will be able to join the labour market or to continue on their studies, joining a masters degree in both French or foreign universities. Moreover, they will be able to join a Business school.

Courses objectives

This higher diploma enables our students to hold position of responsibility in areas such as accounting, finance, management control and law. This diploma allows them to work in certified public accountant offices but also in companies. Furthermore they will be able to work in the public or associative sector.

This course aims at developing sharp and thorough professional competences. It is mainly based on professional skills development. This includes legal, tax and social management, accounting and auditing but also competences in finance, management, management control, information systems management as well as modules in economics and English.

These competences are submitted to validation through a final (mostly written) exam. 7 modules need to be validated.
